TOTAL				**1240**	**186,500.00**	**179,200.00**	**48**	**3.9%**			

How these numbers are produced

Authoritative commerce ledger aggregated by BrandReportService. Reconciled across sellable inventory, online orders, and in-store BOPIS reserves.

This report is generated from the same authoritative commerce tables that serve the portal dashboard, through one shared reporting service. It contains no sample, placeholder or estimated values. Where a figure cannot be derived truthfully it is shown as N/A with the reason stated above rather than substituted with a zero.
